### **DETAILED ACTION**

This office action is in response to after final amendment filed on August 08, 2006.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick J. Buckley Reg. (No. 40,428) on August 21, 2006.

The application has been amended as follows:

#### **In the Claim:**

Claim 42, line 1, replace "reduced power" with --reduced lower-power--.

#### **Abstract:**

Replace "According to some embodiments, a current media status is determined for a storage device." With --A storage device driver receives an asynchronous message indicating that a current media status has been changed; determining a current media status in response to the received indication; caching the current media status; receiving a synchronous poll request from an operating system; and responding to the synchronous poll request in accordance with the cached current media status.--

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior art of the record fails to teach caching current media status; receiving a synchronous poll request from an operating system; and responding to the synchronous poll request in accordance with the cached current media status.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mehdi Namazi whose telephone number is 571-272-4209. The examiner can normally be reached on Monday-Friday 8:30-5:00.
